

# Dacia Lodgy

## A NEW GENERATION DACIA MODEL

Lodgy is the first member of a new generation of Dacia vehicles, which enjoys an attractive interior design and modern functions. Particular attention was paid to the interior design which benefits from a new panel board, quality materials and an ergonomic location of commands.

Robust and functional, Lodgy bears the specific genes of the Dacia brand, offering an unmatched space/price ratio. The new radiator grille and the high sills stand out at the front, emphasising the wheel arches.

For specific details, model configuration and prices, please visit the Dacia commercial site in your country.
